

Confirmation

Wegmüller AG in CH-8544 Attikon is authorised by BAFU (Swiss federal office for environment, traffic, energy and communication) for manufacturing packing items made from heat treated wood, according to the internationally acknowledged IPPC standard ISPM-15.

Our registration-number: CH-90022

Wooden packaging showing the mark below is internationally recognised as packaging that has been treated according to ISPM-15.

This is to certify that the timber is heat treated (min. wood core temperature of 56° C for a minimum of 30 minutes).

All timber and timber products processed by Wegmüller AG are environmentally friendly and have been grown sustainably according to FSC-standard (Forest Stewardship Council).

Timber products such as OSB (Oriented Strand Board) are free from phenol and formaldehyde according to REACH and ROHS.

Attikon, 14 February 2024

Marc Wegmüller

A handwritten signature in blue ink, appearing to read 'M. Wegmüller'.
